

The Art & Science of Researching your Old House

Aimée Keithan, Educational Programs Manager, Greater Portland Landmarks

akeithan@portlandlandmarks.org

(207) 358.7084

Note: Create a spreadsheet with your source, the date of the source, and your notes. Arrange it chronologically to track the timeline of your house. Research large to small– gather information from maps, then move into property records to get names, then research individual names through census records, vital records, city directories, and newspapers to reveal the lives of inhabitants.
